## **DETAILED ACTION**

1, The request for a RCE application filed on 2/5/08 is acceptable and a RCE has been established. An action on the RCE follows.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 27-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Alaloof (US 6,125,478). Alaloof discloses a motorcycle jacket including a plurality of airbags (110,130) to protect against fall and impact that is inflated by electronic means in response to the detection risk and danger emitted by sensors, col. 10, lines 41-49. A first of the airbags (110) extends on the front above the chest and a second of the airbags extends on the rear as shown in figure 2G. Furthermore, the inflating device includes pyrotechnics, col. 9, line 1- col. 10, line 65. Sensors are secure to a vehicle such that upon a fall electrical signals are sent to inflate the airbags as shown in figures 6 (A-C). The jacket has an offset opening as shown in figure 11. Additionally, support means includes bands/straps (44) that are positioned about the chest having the electronic means attached thereto as shown in figure 4A. A bottom portion of the device covers a bottom part of the body as shown in figure 4B.
